STARTUP INDIA RECOGNISED

Pradeep Sharma • Founder & CEO • ceo@alfanumrik.com

Cusiosense Learning India Private Limited • Confidential — For Investor Review Only • April 2026

Every CBSE student deserves a personal AI tutor that actually delivers results.

India has 30M+ CBSE students. Most are stuck in rote-learning loops, fighting outdated content, generic apps, and a coaching-class economy that rewards anxiety over mastery.

Alfanumrik replaces that with a result-oriented, NCERT-aligned AI Operating System that learns each child — and makes them learn back.

Result-Oriented

Every interaction tied to mastery, not minutes.

NCERT-True

100% RAG-grounded. Zero hallucination.

Adaptive by Design

Foxy AI + CME engine adjusts in real time.

Built for Scale

Production-grade for 100K+ concurrent students.

THE MARKET IS BROKEN

CBSE families are paying more, stressing more, and learning less.

30M+

CBSE students Grades 6–12

₹58K Cr

Indian K-12 supplemental market

78%

use 2+ apps; none retain them

1:60

average teacher-to-student ratio

Generic AI ≠ Curriculum

ChatGPT-style apps hallucinate, drift from NCERT, and break parent trust on Day 1.

Static content libraries

Static-PDF apps cannot adapt. Same set, same path — every kid, every time.

Coaching-class anxiety

Expensive, geographic, and one-size-fits-all. Burnout is the hidden product.

WHAT WE BUILT

An Adaptive Learning OS — not another quiz app.

Three engines. One outcome: measurable mastery.

Foxy AI Tutor

Concept-first AI tutor strictly grounded in NCERT via Voyage RAG. Step-by-step. Zero hallucination.

Adaptive Quiz Engine

5 / 10 / 15 / 20 question sets with deterministic grading, no repeats, mastery-aware difficulty.

CME Mastery Engine

IRT-based theta tracking + affective state. Learns each child and rewards via XP, streaks, confidence.

CONCEPT → PRACTICE → CONFIDENCE → RESULTS

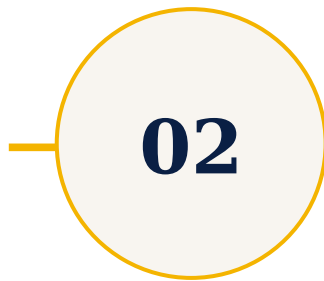

HOW IT WORKS

A 60-second tour of the student journey.

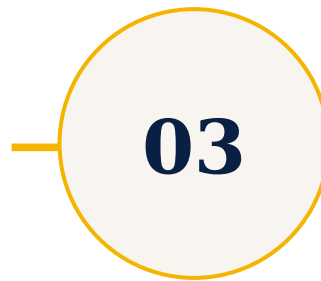

Smart Onboarding

Grade, board, weak chapters. Goals locked in 90 seconds.

Diagnostic CME

IRT-driven baseline maps theta per concept.

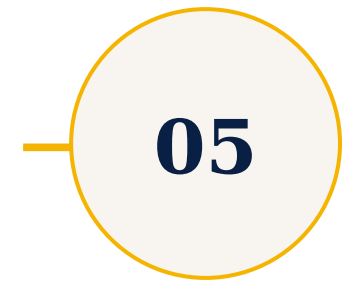

Foxy Tutor Sessions

RAG-grounded, step-by-step, NCERT-true.

Adaptive Quizzes

Mastery-tuned. No repeats. Real-time grading.

Parent + Teacher View

Mastery, confidence, time-on-task. Weekly digest.

WHAT WE REFUSE TO BE: Generic chatbot · PDF library · Coaching-class clone · Hallucinated-content app

MARKET TIMING

Three tailwinds converged in the last 18 months.

1

AI tutoring is finally usable

GPT-class models + RAG eliminate hallucination at curriculum scale. The 2024 unlock makes Alfanumrik possible.

2

Post-Byju's trust vacuum

Parents have rejected video-library EdTech. They want outcomes, not sales calls.

3

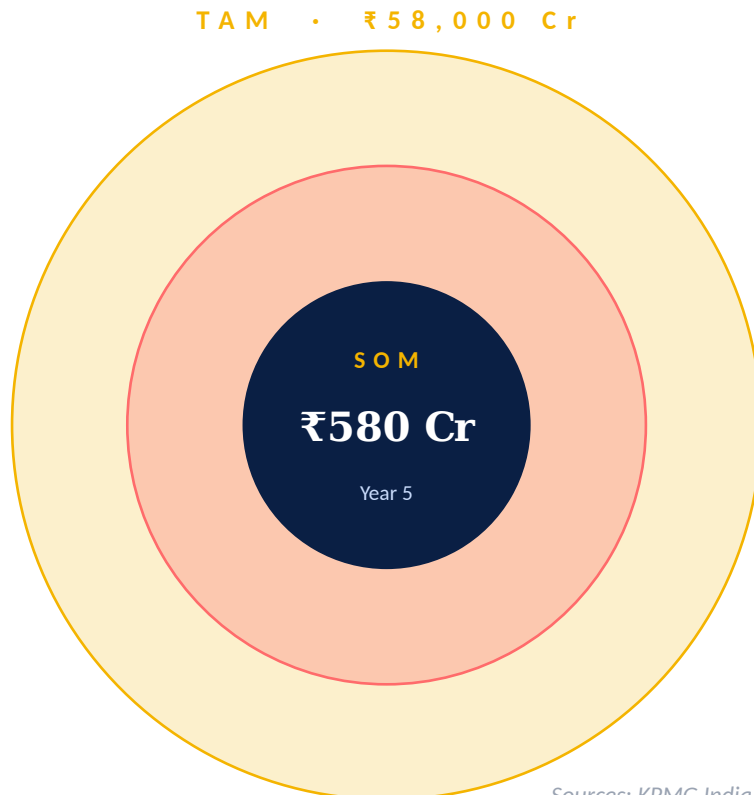

NEP 2020 + new NCERT

Curriculum overhaul demands a new content layer. Legacy players are stuck on old syllabus PDFs.

The 18-month window to win Indian CBSE AI tutoring is open. We are 9 months in.

HOW WE MAKE MONEY

Subscription-first. ₹ only. No paisa games.

TOP-OF-FUNNEL	MOST POPULAR	HIGHEST LTV
Starter ₹299 / month - Foxy AI tutor (limited) 5 quizzes / day - Single subject - Parent weekly digest	Pro ₹699 / month - Unlimited Foxy sessions - Adaptive quiz engine (full) - All CBSE subjects - CME mastery tracking - Parent + teacher dashboard	Family / School ₹1,099 / month - Everything in Pro - Up to 4 children / batch - Phygital workbook add-on - Priority human-in-loop support

Unit economics target · CAC ₹450 · Blended ARPU ₹6,200/yr · Gross margin 78% · Payback < 2 months

WHERE WE ARE

9 months of build. P5 production launch in motion.

Five compounding advantages competitors cannot copy in a quarter.

1

RAG-grounded NCERT corpus

Voyage embeddings + permanent removal of legacy syllabus. Zero hallucination at curriculum scale.

2

CME mastery algorithm

IRT theta + affective state model. Each interaction sharpens the per-student model.

3

Production-grade architecture

Next.js + Supabase + Edge Functions. RBAC, observability, daily-cron, retrain pipeline live.

4

Phyigital learning loop

QR-bridged workbook ↔ app. Reduces churn, blocks pure-software competition.

5

Founder-led CBSE obsession

Built by a CBSE-native founder. Every flow tested with real students, parents, teachers.

Each student's CME profile becomes the moat. The longer they stay, the harder we are to leave.

BUILT LIKE INFRASTRUCTURE

Production-grade from Day 1. Not a prototype.

CLIENT

Next.js (App Router) • responsive • mobile-first

API LAYER

Edge Functions • idempotent • RBAC-enforced • audit logs

INTELLIGENCE

Foxy AI v32 • Voyage RAG • CME (IRT θ) • affective state • retrain cron

Daily-cron • wave flags • SRE runbook • monitoring • zero Sev-1 (30d)

STABILITY • CORRECTNESS • CONTINUITY • RBAC • IDEMPOTENT PAYMENTS • ZERO HALLUCINATION

DISTRIBUTION

A three-engine GTM. Each one feeds the next.

Direct-to-Parent (D2P)

Performance + parent-trust content on YouTube, Instagram, WhatsApp. ₹199 entry tier.

CAC < ₹450

School Partnerships

Pilot-to-paid in 50+ schools. Phygital workbooks + dashboard for class teachers.

₹3,999 / child / yr

Tutor & Coaching Network

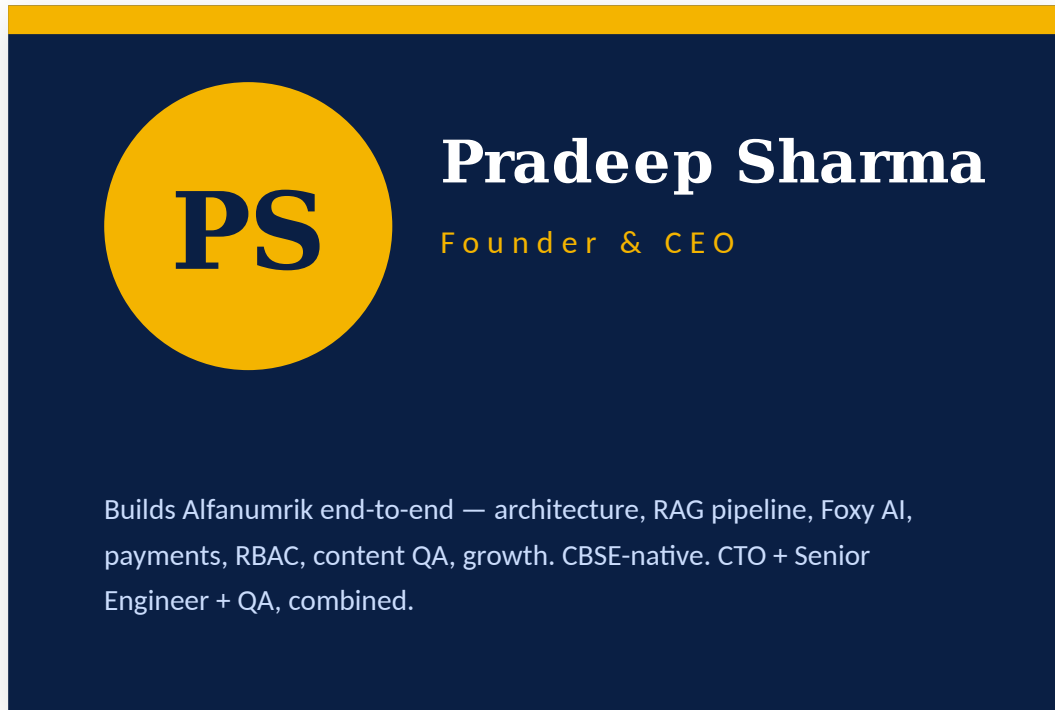

White-glove portal for individual tutors. Alfanumrik becomes their AI co-pilot.

20% rev share

YEAR-1 TARGET • 10,000 paid students • 20 school pilots • ₹6.0 Cr ARR exit run-rate

FOUNDER-LED

One operator wearing CTO + product + GTM hats. Hiring with this round.

A dark blue rectangular card with a yellow header bar. On the left is a yellow circle containing the letters 'PS' in dark blue. To the right of the circle, the name 'Pradeep Sharma' is written in white, with 'Founder & CEO' in yellow below it. At the bottom, a paragraph of white text describes his role.

PS

Pradeep Sharma
Founder & CEO

Builds Alfanumrik end-to-end — architecture, RAG pipeline, Foxy AI, payments, RBAC, content QA, growth. CBSE-native. CTO + Senior Engineer + QA, combined.

HIRING WITH THIS ROUND

Head of Content (NCERT)

Curriculum lead — owns RAG corpus, QA, and chapter-by-chapter alignment.

Senior Full-Stack Engineer

Next.js + Supabase + Edge Functions — owns velocity behind the founder.

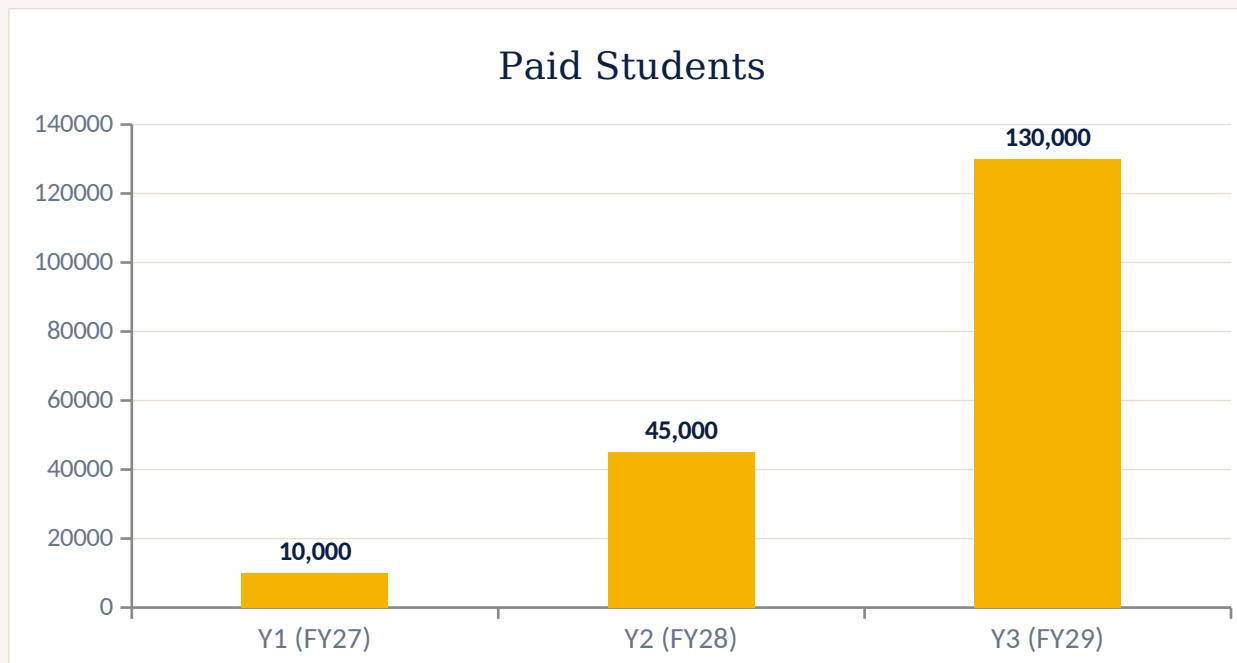

Growth & Community Lead

Parent-trust content, WhatsApp funnels, school-pilot ops.

Student Success (Part-time)

Onboarding, retention, support. The first human-in-loop.

Conservative model. Profitable on Pro tier alone.
